POINSETTIAS FOR PATIENTS 2021

DEADLINE NOV 16th Shop Online: <https://shop.vgha.ca>

Early Deliveries Available! Call Val at (250) 598-3385, info@vgha.ca

Waiting in Emergency is difficult for kiddies. The Auxiliary wants to provide a separate waiting room. Help make their emergency visits less upsetting. How? Buy holiday plants to make The Kid Kave happen!

victoria general hospital
AUXILIARY

Be an ER Santa!

Give an anonymous gift to an emergency worker \$20.
SANTA DEADLINE DEC 16th

WE'RE PROUD OF OUR POINSETTIAS

Top Quality: Our plants are locally grown and of the highest quality. They are nurtured for six months from cuttings in a special space in Hilltop's greenhouse resulting in large, bushy plants.

Safe: Many people worry about poinsettias being poisonous if eaten by their pets or young children. Contrary to popular belief, they are not toxic, although in some cases ingestion of the leaves can cause vomiting or diarrhea. Contact with the sap can cause a rash.

THE VIC GENERAL AUXILIARY

The hospital AUXILIARY began when the hospital was built 38 years ago. We have raised over three million dollars' worth of equipment and amenities, mainly through our hospital giftshop.

POINSETTIAS FOR PATIENTS over the years has bought a treadmill, a stretcher, a baby-blanket warmer, several biliblankets for jaundiced newborns, a bilirubin meter, & a mural and virtual reality for kids in the ambulatory lab at 2North.

The kids win; the hospital wins; and you win – all because you buy our fabulous plants.

Fri. Nov 27, 11am-7pm
Sat. Nov 28, 9-11am

**Strawberry Vale
Community Centre
250-479-8031**

11 High St, Victoria

Thanks from the kids!

PLANT CARE

Keep your potted poinsettia at normal room temperature in bright filtered light, for example, sunlight filtered through a shade or curtain, and out of drafts. Water only when slightly drooping. The potting mixture should then be thoroughly saturated. Under favourable conditions the coloured bracts will remain attractive for months.
